DETAILED ACTION

Election/Restrictions

1. Applicant's election without traverse of Group I in the reply filed on 9/24/04 is acknowledged.

Claim Rejections - 35 USC § 102

2. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

3. Claims 1-10 are rejected under 35 U.S.C. 102(b) as being anticipated by either one of Youngquist and Peng.

Either one of Youngquist (see col. 3, lines 31-34) or Peng (e.g. Abstract; col. 5, line 63 – col. 6, line 62; Table 1) disclose a cheese analogue or cheese product which comprises a decaffeinated soy protein material.

All of the process limitations in the instant product claims have been noted and the claims are essentially product-by-process claims. "Even though product - by process claims are limited by and defined by the process, determination of patentability is based on the product itself. The patentability of a product does not depend on its method of production. If the product in the product - by - process claim is the same as or obvious from a product of the prior art, the claim is unpatentable even though the prior product was made by a different process." In re Thorpe , 227 USPQ 964, 966. Absent a

showing of unexpected results, it is considered inherent that the product of either one of Youngquist and Peng is the same as the instant product as claimed.

Conclusion

4. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.
